### **PREFACE**

Kerala has got much better health indices like Maternal Mortality Ratio (MMR) and Infant Mortality Rate (IMR) compared with other states in India. But the question often asked is, whether Kerala has achieved its potential in this regard. We have to consider that MMR of Kerala in early nineties was said to be 87. According to the Millennium Development Goal 5, Kerala's MMR should therefore come down to about 20 by 2015. As per the latest Sample Registration System (SRS) the MMR of Kerala was 66 (SRS 2010 -12). Kerala Federation of Obstetrics & Gynecology estimates this to be about 50 on the basis of Confidential Review of Maternal Deaths (CRMD). All these figures suggest that there is need for urgent action in reducing maternal deaths in our state. Our analysis of the situation in Kerala has clearly shown that the steps urgently required are:

1. To increase the competence of the practicing obstetricians and labour room staff in providing emergency obstetric care and basic life support (EMOCALS). 2.To ensure that the quality of obstetric care provided is standardised. That is the background to the launch of this project. The National Rural Health Mission (Kerala) (NRHM) and Kerala Health Services have realised the need for this venture and supported it wholeheartedly. The financial support was by the NRHM. We are grateful to the Government of Kerala, Department of health, and the National Rural Health Mission for all the support and encouragement.

While the project was in progress, at the instance of the then Principal Secretary Health, a tie up between Kerala Government Health Services and the Nice International of the United Kingdom was established. NICE highlighted the importance of establishing quality standards in obstetric care based on the findings of Confidential Review of Maternal Deaths conducted by KFOG. After many interactive sessions, a new dimension to the obstetric care in the state was added – *quality standards in obstetric care*. The NRHM and KFOG joined hands with KHS and NICE in the launch and execution of the new project and part of the funds allotted to EMOCALS originally was transferred to that. This report will include details of that project and its accounts.

### INTRODUCTION

Need for EMOCALS
Training
and the introduction of
Quality Standards

The Kerala Federation of Obstetrics and Gynecology has been conducting confidential review of maternal deaths since 2004 and the findings of first six years (2004 to 2009) are published in two volumes. The reports have shown that there are many avoidable maternal deaths in Kerala. These are mainly due to postpartum hemorrhage, hypertensive disorders of pregnancy, sepsis, and amniotic fluid embolism. Early detection and prompt care of these problems would have saved many of these lives. If the patient has an acute collapse, life support measures have to be initiated immediately. For this the obstetricians and labour room nurses have to be trained and retrained.

The developed countries had recognized this long ago. They insist that all obstetricians should undergo skills in managing obstetric emergencies and basic life support - eg: courses like MOET(Managing Obstetric Emergencies and Trauma) and ALSO (Acute Life Support in Obstetrics). The Kerala Federation also has recognized the need for such training and has been conducting a certified training programme with the help of senior obstetricians and critical care/

anesthesia specialists. We request the government to make it compulsory for all practicing obstetricians to undergo this training.

In many labour room settings the obstetrician may not be available on the spot when such emergencies develop. It will be only the nurse/midwife or the nursing assistant/attender who will be available. So it becomes imperative to train them in recognising the critical situation and provide the first aid. Accordingly, the EMOCALS training programme added an additional scheme as EMOCALS (N) for nurses and nursing assistants. The original EMOCALS was redesignated as EMOCALS (D) for doctors.

The need for improving standard of obstetric care was realised after discussions with NICE international. After analysing the causes of maternal deaths revealed by the CRMD and published in Why Mothers Die, Kerala, the international body (NICE) suggested that the way forward in reducing maternal deaths is to establish Quality Standards in obstetric care. It meant establishing minimum standard steps in management of labour and delivery and associated problems that may develop. These minimum

standards were worked out after many sessions of discussions between technical experts of NICE and members of KFOG and officers of NRHM and Kerala Health Services. As a first step standards were developed for reducing deaths due to PPH( Post Partum Hemorrhage) Hypertension. It was decided to pilot this in hospitals of various levels from Medical College to Community Health Centre. The project was launched by the government of Kerala and NICE international. There was need for visiting the various centres, analysing the situation, identifying any gaps, training the staff and data collection. KFOG was entrusted with the training of the staff and part of the fund originally allotted for EMOCALS was earmarked for this. The project was implemented from first April 2013. Six hospitals from the Government sector and two from the private sector were selected for the pilot scheme. This report covers the Quality Standard project as well.

# **Executive Summary**

**EMOCALS (D and N) training** - The ability to provide emergency care and life support measures is a must for anybody attending a laour and delivery. The Kerala Federation evolved a compact training programme called EMOCALS to train obstetricians(EMOCALS- D) and Nurses(EMOCALS \_N). The Kerala Health Services and NRHM realised the importance of the training programme for the staff in the Health Services and hence the project was launched. It is a joint project of the Kerala Federation of Obstetrics and Gynecology, Kerala Health Services and the National Rural Health Mission (NRHM) Kerala.

The urgent need for training the obstetricians and nurses, especially in the peripheral centres, was highlighted by the Confidential Review of Maternal Deaths (CRMD). During this audit it was seen that many maternal deaths that occurred in the higher centres had the initial treatment and serious turn of events in the peripheral centres. These patients were then transported to higher centres without giving adequate first aid. This resulted in their death on the way or on reaching the higher centres in irreversible lethal conditions. The competence in administering essential care at the beginning of the problem will make all the difference in the outcome.

The Kerala Federation impressed upon

the Health department and the NRHM these facts. A memorandum of agreement was signed on 27<sup>th</sup> September 2012. The proposal was to give this training to obstetricians in six centres of Kerala.

There was agreement to train a core team of trainers from among the nurses so that they can be used to train the rest of the nursing community (including nurses and nursing assistants). There was budgetary provision to purchase manikins and training materials and make them available at the five regional centres in addition to the head quarters of KFOG at Thrissur. Altogether the proposal was for Rs.49, 03,110/-.

At the completion of four sessions for doctors and one session for nurses, there was a review of the programme on 15<sup>th</sup> December 2012. This was attended by the Principal Secretary Health and the State Mission Director. Principal Secretary gave instructions to make sure that nurses training is attended by faculty from government nursing colleges and schools so that they can take up the training of the nurses in service.

The remaining training sessions were completed as per schedule.

#### **Quality Standards**

After the proposed training sessions for doctors and nurses were completed and

the manikins were purchased, there was still an excess of funds. Part of this (Rupees nine lakhs twenty eight thousand five hundred and forty four ) was then transferred to Quality Standards project of the Kerala Health Services and NRHM in partnership with NICE international. KFOG was invited to join this new project and help in conducting the training of the staff of the hospitals piloting the Quality Standards project. (As per order NRHM/1293/M&E(QA)/2013/SPMSU dated 29/03/2013)

KFOG volunteered to conduct some more training sessions and utilise the entire amount originally allotted. This was done by conducting four more training sessions for doctors. Two additional sessions were conducted for nurses, to help with the quality standards project.

### Manikin purchase

Utilising the funds allotted we have purchased manikins for training in airway management, cardiopulmonary resuscitation, and neonatal intubation and supplied a minimum set of manikins to each of the six centres. In addition uterine models, laryngoscopes, LMA (laryngeal mask airway), Endotracheal tubes, oropharyngeal and nasopharyngeal airways, face masks, fetal skull, pelvic stand and pelvis and almirah were supplied to each of these centres. Trolley bags were provided to carry them.

For administrative convenience the EMOCALS projects for doctors and nurses were separated with separate office bearers with Dr.V P Paily remaining as the coordinator and Dr.V Rajasekharan Nair continuing as the Liaison officer for all three divisions of the project. The whole project was under the supervision of the State President of KFOG (Dr.Kunjamma Roy for the year 2013 and Dr.Lalithambika for the year 2014) and the State Secretary of KFOG Dr.Fessy Louis. Dr.Bindu Menon and Dr.Neetha George supervised the Emocals-D and Dr.Deepthy M and Dr.Betsy Thomas supervised the Emocals –N. Dr.Lola Ramachandran was the treasurer. Dr. Vasanthi Jayaraj, Dr. V.L. Arathy and Dr.A P Geetha supervised the quality standards training.

We acknowledge the services of the critical care department of Vinayaka Institute of Medical Sciences, Salem, in providing training in emergency resuscitation in the early part of the project.

### MEMORANDUM OF AGREEMENT

- 1. This Memorandum of Agreement is made between STATE MISSION DIRECTOR (NRHM), KERALA, State Programme Monitoring and Support Unit, NRHM Building, DHS Office, General Hospital Junction (hereinafter referred to as the NRHM) Thiruvananthapuram - 695 035 and the Secretary General, Kerala Federation of Obstetrics & Gynaecology, Togs Academia, East Soorvagramam, Thrissur-5 (hereinafter referred to as the KFOG) on 27th September 2012.
- 2. The object of this MoA is to facilitate conducting of Training in basic and emergency obstetric care and Basic life support for obstetricians and nurses in the state of Kerala for the year 2012. KFOG submitted a proposal to the NRHM to conduct the above mentioned Training and NRHM after having carefully considered the proposal and after holding a detailed meeting with KFOG has agreed to approve the proposal subject to the following terms and conditions:
- a.KFOG will conduct minimum of two batches of TOT (Training of Trainers) for Nurses and six batches of training for Obstetricians as per the proposal submitted. The total budget approved by NRHM under this understanding is Rs 49,03,110/- under the head A.9.3.1.

- b. KFOG shall procure and supply the manikins and other teaching materials for the project.
- Preparation, printing and distribution of teaching materials will be done by KFOG.
- d. KFOG shall carry out the work in districts in consultation with the State Program Manager (RCH) and concerned District Programme Managers.
- e. KFOG shall provide good accommodation on twin sharing basis to the Trainees.
- f. TA/DA to Trainees and Trainers will be provided by KFOG as per existing rates.
- g. KFOG shall arrange proper venue, training aids, teaching materials and provide lunch/refreshments.
- h. KFOG shall submit the training reports, list of trainees who attended the training, copy of attendance sheet and a copy of teaching materials including soft copy developed for training to NRHM
- i. All the trainings shall be conducted and Final Project Completion Report along with the SOE shall be furnished in by 15th February 2013 by KFOG.
- j. A provisional utilization statement shall be furnished by KFOG by 15<sup>th</sup> December 2012 and by 15<sup>th</sup> February 2013 by KFOG.

- k. Accounts duly audited with audit report and Utilization Certificate shall be furnished by KFOG to NRHM by 15<sup>th</sup> March 2013.
- l. NRHM will transfer the approved budget in advance to KFOG.
- m. Amounts shall be transferred only through electronic banking to the official bank account of KFOG bearing number 036805000019265 of Kerala Federation of Obstetrics & Gynaecology, South Indian Bank, East Fort Branch, Thrissur-5 subject to the vendor form of NRHM being duly filled in and submitted.
- n. KFOG agrees to use all necessary skills, care, diligence and efficiency in

- conducting the training and completing it within the stipulated time-frame.
- o. Excess amount of fund over and above the budget will not be provided. Balance amount of utilized fund at the end of the project period shall be refunded to NRHM.

KFOG shall endeavour to cooperate with NRHM and Kerala Health Services Department in similar technical assignments during the period of this agreement and ahead, for improving the public health services in the state of Kerala.

6	Ernakulam	2 <sup>nd</sup> &3 <sup>rd</sup> Feb 2013	IMA Hall, Cochin	26	3

### 1st and 2nd courses of Emocals D

The courses were conducted simultaneously at Thiruvalla and Kollam so that the same faculty could cover both places.

In Thiruvalla the training programme was held at Pushpagiri Institute of Medical Sciences on 27th and 28th October 2012. A total of 36 doctors attended the programme out of which 12 were from the government sector. Local arrangements were done by Dr. N S Sreedevi and Dr. Sathi. The NRHM observer was Dr. Jaysree, deputy director(FW) DHS, Trivandrum.

A test was conducted at the beginning of the session and also at the end of the course to assess their understanding. Feedback forms were made for further improvement.

The basic life support workshop was headed by Dr. Sreenath and team from Vinayaka Mission Medical College Salem. Reference books distributed were:

- 1. KFOG protocol book,
- 2. 2<sup>nd</sup> Edition of 'Why Mothers Die-Kerala' and
- 3. A manual on Basic and Advanced life support by the Salem team.

In Kollam, the Emocals programme was held on 27<sup>th</sup> &28<sup>th</sup> October 2012 at Hotel Vaidya. The obstetric team was headed by Dr.V P Paily & Dr.V Rajasekharan Nair. The local co-ordinators were Dr.Lakshmi Ammal and Dr.Kavitha. Dr.Sreenath and team conducted the life support workshop.

Delegates were from Trivandrum and Kollam. Out of a total of 38 participants 13 were from the government sector. Dr.Anu, Jr.Administrative Medical Officer, DHS was the NRHM observer. All the three

books were distributed to the delegates. Most of the delegates got more than 90% in the post test.

**3rd and 4th Courses of Emocals D** were held at Kasaragod and Calicut on 1st and 2nd of December 2012. There were 38 delegates in Calicut – 27 from the government sector and 11 from the private hospitals. Dr.Beena Guhan, Dr.Jayanthi Raghavan and Dr.Jyothi Rameshchandran were in charge of the local arrangements. The venue was at IMCH Calicut.

Dr.V P Paily headed the obstetric team and Dr.Sreenath and team conducted the basic life support workshop. The sessions were very interactive.

Kasaragod: The local coordinators were Dr.Sobha Mayya and Dr.Jyothi. Total of 37 delegates attended, out of which only 9 were government doctors and the rest were from private hospitals. Issues like absence of blood bank facilities, road transport, referral centres and non availability of blood components were highlighted by the delegates. Programme was well appreciated. All the three reference books were distributed to the delegates. Pre and post tests were conducted.

#### 5th & 6th Courses

These were held at Thrissur and Ernakulam on 2<sup>nd</sup> and 3<sup>rd</sup> of February 2013.

Thrissur: The venue was TOGS Academia Thrissur. Dr.Bindu Menon and Dr.Neetha George were the local coordinators. Total delegates were 24, of which 17 were from the government hospitals. Basic life support workshop was organised by Dr.Babu Palatty and team from Jubilee Mission Medical College Hospital, Thrissur. A slight modification was made this time – only those who scored above 70% in the post test were given the completion certificate of the Emocals training programme. Others were given only the participation certificate.

Ernakulam: Venue was IMA Hall, Cochin. Local coordinators were Dr.Sheela C Babu and Dr.Gracy Thomas. A total of 29 doctors attended the course, out of which 26 were recruited from the government sector. Pre and post tests were conducted and completion certificates were mailed to them according to the post test results.

### Programmes conducted in 2013-14

List of courses conducted for doctors in 2013-14

	District	date	venue	No. of delegates			
				Govt	Private		
1	Trivandrum	15,16 June 2013	Trivandrum	30	-		
2	Malappuram	24,25 August 2013	Malappuram	14	19		
3	Kottayam	26,27 October 2013	Kottayam	13	10 + (12 PGs)		
4	Kannur	11,12 January 2014	Anjarakandy	13	16 + (6 PGs)		
			Medical College,				

These were also conducted in the same pattern as the previous six courses. Training was for two days - one day was assigned to critical care and one day to obstetric topics. Most of the presentations were as workshops, drills, videos or demonstrations. The sessions were interactive; a pre and post tests were conducted on both days. The delegates were given the two books – KFOG protocol book and the Why Mothers Die - Kerala 2nd edition. The whole programme was planned and chaired by Dr. V.P.Paily and Dr. Kunjamma Roy.

1st course conducted at Trivandrum was attended by 30 delegates, out of which 10 were staff nurses. All were from the government hospitals. Dr.Lakshmiammal and Dr.Reji Mohan were the coordinators.

The second one was at Malappuram and the co-ordinators were Dr.Beena Guhan and Dr.Jyothi. It was attended by 33 delegates, 14 from the government sector and 19 from the private hospitals.

Third programme was held at IMCH, Kottayam on 26 &27th October 2013. A total of 35 doctors attended the course. The local co-ordinators were Dr.Sathi M and Dr.Kala.

Fourth course was at Anjarakandy Medical College, Kannur on 11<sup>th</sup> &12<sup>th</sup> of January 2014. It was attend by 35 delegates including postgraduate students. Dr.Cynthia and Dr.Kunjikannan were the co-ordinators.

#### PRE-TEST AND POST TEST MODEL

- 1. I V fluid of choice in the initial management of patient in shock is -
- 2. Rare but significant lung injury caused by blood transfusion is -
- 3. An antibiotic used against Methicillin resistant staphylococcus aureus is -
- 4. Pathogen responsible for acute pyelonephritis is -
- 5. Rectal mucosa in a 4° perineal tear is sutured with which suture material
- 6. Normal range of fibrinogen in an adult is
- 7. Expand PRES
- 8. Steroids in a pregnant overt diabetic can precipitate which complication
- 9. Primi, 30 weeks, with blood pressure 180/120 and urine albumin ++. Antihypertensive of choice for rapid control of BP will be-
- 10. The most dreaded cerebral pathology contributing to maternal mortality in uncontrolled hypertension in pregnancy is –

### **Short answers (Points only)**

- 1. 3 components of active management of 3<sup>rd</sup> stage of labour
- 2. Instruments in a cervical inspection set
- 3. Two special steps different in obstetric hysterectomy compared with gynecological hysterectomy
- 4. Any two methods to deliver the aftercoming head in breech.

- 5. Expand the acronym HELPERR for shoulder dystocia
- 6. Three variables you will look for in a CTG
- 7. Loading dose of MgSO4 in regime promoted by KFOG
- 8. Two pre-requisites for Factor V11a administration
- 9. Two pre-requisites to apply an outlet forceps
- 10. The four Ts as causative factor of PPH
- 11. Any three surgical steps to control bleeding in atonic PPH
- 12. Patient, post LSCS, day 4, is seen in ward with convulsions, drowsiness, right sided weakness, BP 140/80
  - a. Your first diagnosis
  - b Three steps to avoid development of this condition
  - c. Gold standard investigation for diagnosis
  - d. Any two steps in management
- 13. Primi, 35 wks with acute onset of pain abdomen, absent FM, mild bleeding P/V
  - a. Your diagnosis
  - b. Two relevant investigations
  - c Three complications
- 14. A 25 yr old primi presents with acute pain abdomen and bleeding p/v at 2months amenorrhea. Three differential diagnosis
- 15. Dose of Fresh Frozen Plasma

# Curriculum

The topics covered are listed below. Modifications were made depending on requests by the trainees.

APH, PPH atonic and traumatic

Active Management of third stage

Surgical procedures to arrest bleeding,

Obstetric hysterectomy, Rupture uterus

Pre Eclampsia, Eclampsia

Anticonvulsants, Antihypertensives

Operative deliveries

Blood and component use

Acute collapse, Amniotic fluid embolism

Thromboprophylaxis

Shoulder dystocia

Emergency cerclage

**CTG** 

Sepsis, Antibiotic use

Neonatal resuscitation

### Life support

Vascular access, Commonly used monitors

Cardio respiratory arrest, management

Airway management,

Defibrillators

Fluid and electrolyte management

### **SAMPLE PROGRAMME - OBSTETRICS**

### 8.15 – 8.45 Pre Test

Session 1	Lectures
845-8.55	Introduction and Overview of programme
9.00-9.40	Active management of 3 <sup>rd</sup> stage & 4 <sup>th</sup> stage of labour
	PPH drill and management of PPH, PPH Box
9.40-9.55	Cervical, vaginal and perineal tears(video)
9.55-10.05	Recap and interaction
10.05-1015	Rupture uterus(Demonstration)
10.15-10.25	Obstetric hysterectomy (Demo)

10.25-10.35	Internal iliac ligation
10.35-10.50	Recap and interaction
10.50 -11.00	Coffee break, photo
Session 2	Lectures
	Acute hypertension, Eclampsia,
	MgSo4 use, Eclampsia box
11.15 – 11.30	Cerebro vascular emergencies
11.30-11.40	Anticonvulsants other than MgSo4
11.40-11.50	Discussion & Recap
11.50 - 12.10	Demonstrations
	Extension of CS incision, forceps in C.S, Abnormal presentations
<b>Session 3</b>	Lectures
12.10-12.25	Blood components
12.25-12.35	DIC, Factor VII A
12.35-12.50	Acute collapse
12.50-13.05	Thrombo prophylaxis
13.05 -13.15	Discussion, Recap
13.15 -14.00	lunch
<b>Session 4</b>	Workstations
14.00- 15.10	1. Cervical inspection, uterine packing, condom tamponade

#### REPORT OF THE TRAINING OF THE TRAINERS

KFOG is acutely aware of the need for empowering nurses and nursing assistants in tackling emergencies in obstetrics as they are usually the only ones available at the scene of an emergency when it strikes. However, it is not possible for KFOG to undertake this training for all nursing personnel. Hence it was proposed to train the senior and middle level nursing faculty

especially from nursing college and schools with the hope that they in turn will train the nurses and nursing assistants. The initial plan was to conduct two such 'training the trainers' courses. However, after the launch of the quality standards two more training sessions were conducted for the staff of SAT Thiruvananthapuram and General Hospital Ernakulam. A brief report of the training programme is given below.

#### **EMOCALS Training of Trainers for Nurses**

#### The Schedule

23 <sup>rd</sup> , 24 <sup>th</sup> Feb 2013	Togs Academia, Kizhakke Suryagramam,	
	Behind Bishop Palace, East Fort, Thrissur -5	

#### 1st Course

The first training module for the trainers of EMOCALS-N was conducted at TOGS academia, Kizhakkumpattukara on Dec 8<sup>th</sup> and 9<sup>th</sup> 2012. A total of 45 delegates attended the programme. The participants were nurses mainly from government sector. They were from Thrissur, Alappuzha, Kottayam, Idukki & Ernakulam districts. The observer was Mrs. Ancy Mathew, Associate Professor, School of Nursing, Kottayam.

Registration started at 8 am. The participants were given a kit of bag, pen, writing pad, programme copy and copy of 2 books-.

- 1. Why Mothers Die-Kerala, 2nd edition
- 2. The Protocol book prepared by KFOG.

The programme started with introduction of the programme and outline by Dr.V.P.Paily. He

stressed on the need of these types of training programmes for staff nurses and nursing assistants who will be carrying out the activities of labour room. It was followed by a test which had 20 questions on the practical aspects. The first session was BE PRESENT AND BE PREPARED. A pre-test was given before the lectures

The lectures were more of interactive sessions with ample time for discussion and suggestions from the delegates. All the lectures were supported by power point presentations. Post lunch sessions were workstations where delegates were divided into small groups and were given hands on training on various drills and practical procedures. The first day's programme was concluded by 5.30 pm.

Second day started with recap of first day's activities. Sessions were taken by gynecologists, anesthesiologists, and neonatologist. After the

post lunch workstations a post test was conducted with the same questionnaire used for pre-test which showed a marked improvement of scores. A sample score of the first course is shown below.

Mark	Pre test	Post test
5	0	0
6	1	0
7	3	0
8	4	0
9	2	1
10	1	0
11	8	2
12	2	0
13	2	3
14	6	2
15	2	9
16	5	4
17	2	7
18	1	5
19	1	2
20	0	3

Certificates, TA/DA as per government norms, softcopy of study materials, and a copy of group photo of delegates were given to all candidates by Dr. V.P.Paily. The meeting concluded at 4.30 pm. On both days breakfast, coffee, and lunch were served. Accommodation was provided on twin sharing basis on Saturday. The suggestions from the feedback forms from the delegates were as follows:

- 1. All appreciated the content and presentation of the programme, and wanted more frequent training sessions, preferably on week days.
- 2. Most appreciated sessions were on PPH, Eclampsia, Asepsis, Sterilisation, and Neonatal resuscitation.
- 3. Most of them were keen to start antenatal classes in their set up and to arrange emergency trolley.

#### 2nd course

This was conducted in a similar pattern at TOGS Academia. There were 23 nurses participating from different districts.

9.00- 9.10	Introduction and breaking the ice	Prof. V P Paily	10′
9.10- 9.20	Outline of the workshop	Prof. V P Paily	10′
9:20-9:30	Pretest		10′
Session 1 –9	:30 – 10:10 Be present and be prepared		
	Antenatal care, antenatal class,		
	danger signals	Prof. V P Paily	10′
	Setting up labour room –Stages 1,2,3		
	and Neonatal corner	Dr. Nishi	10′
	Instruments, Packs, emergency trolley	Dr. Deepthy	10′
	Interaction and Recap	Prof V P Paily	10′
Session 2 – 1	10:10 – 10:45 Companion and Communicato	r	
	Communication with patient,		
	relatives and doctors	Prof Rajasekharan Nair	10′
Companionship in labour		Dr. Deepthy	10′
	Managing crowd in emergencies	Dr. Betsy	5′
	Documentation	Dr. Resmi	5′
	Interaction and Recap	Prof Rajasekharan Nair	5′
10:45 - 11 :0	O Coffee break		
Session 3 –1	1:00-11:50 Emergencies during Labour		
	I stage with NST	Dr.Deepthy	10′
	II stage with delivery	Prof Paily	10′
	3 <sup>rd</sup> stage and 4 <sup>th</sup> stage	Dr. Resmi	10′
	Labour monitoring with examples		
	from CRMD	Dr. Betsy	10′
	Interaction and Recap	Prof. Paily	10′
Session 4 –1	1:50-12:20 Role play		
	Acute collapse, Em.trolley	Dr. Deepthy	10′
	PPH, PPH Box	Dr. Resmi	10′
	Eclampsia, Eclampsia Box	Dr. Betsy	10′

Session 5– 1	2:20 – 1:00 The Killers		
	Antepartum hemorrhage –		
	how to pick up	Prof Rajasekharan	10′
	Management of AFE	Dr. Resmi	10′
	How to prevent VTE	Dr. Betsy	10′
	Interaction and Recap	Dr.Rajasekharan	10′
1.00- 2.00	Lunch Break		
2.00-3.30	Workstations		15' each
	1 Partogram	Dr. Ambujam	
	2 Conduct of labour	Prof. Paily	
	3 Shoulder dystocia	Dr. Resmi	
	4 AMTSL	Dr. Nishi	
	5 Condom tamponade	Dr. Deepthy	
	6 Cervical inspection	Dr. Betsy	
3:30-4:00	Tea Break		
Session 5 - 4:	00 – 4:45	<b>Operative Deliveries</b>	
	Cesarean	Prof Paily	10′
	Forceps	Dr.Ambujam	10′
	Ventouse	Dr.Nishi	10′
	Breech	Dr. Ambujam	10′
	Interaction and recap	Prof Paily	5′
Day 2	9 th December		
8.00- 8.30	Breakfast		
8:30 - 8:40	Recap of the first day	Prof V P Paily	10′
Session 68.40	-9.20 Asepsis in labour room		
	Autoclaving and sterilisation	Prof.V P Paily	10′
	Segregation and disposal of waste	Dr.Betsy	10′
	Cleaning the Labour room	Dr. Deepthy	10′
	Interaction and Recap	Prof.V P Paily	10′
Session 7 9:2	20-10:00 Miscellaneous		
	Patient transfer and Emergency number	Dr. Lola	10′
	Maintenance of instruments -Oxygen		
	cylinder, Sterilizer, Cautery, Suction a		
	pparatus etc	Prof. Paily	10′
	Handling of HIV and HBsAg patients	Dr. Betsy	10′
	Interaction and Recap	Prof .VPP	10′
10:00 – 10:30	Coffee Break		

Session 810.3	0-11:20 Against infections		
	Wound management	Dr. Deepthy	10′
	Sepsis	Prof. VPP	10′
	Antibiotic policy	Dr. Lola	10′
	Anaphylaxis	Dr. Betsy	10′
	Interaction and recap	Prof. VPP	10′
Session 911.2	0- 12.00	The Killers	
	Hypertensive disorders of pregnancy –		
	definition, classification	Dr. Lola	5'
	Management of hypertension	Dr. Deepthy	10′
	Management of eclampsia	Prof. V P Paily	5 '
	HELLP syndrome, DIC	Dr.Lola	10′
	Interaction and recap	Prof. VPP	10′
Session 10 12	2:00- 1:00 Drugs and fluids		
	Important Drugs and administration	Dr. Geetha A P	10′
	I V fluids	Dr. Lola	10′
	Blood and blood products	Dr. Geetha A P	10′
	Interaction and recap	Prof. VPP	10′
	General overview of resuscitation	Prof.A.K.Unnikrishnan	10′
	Outline of neonatal resuscitation	Dr.Raveendravarma	10′
1.00-2.00	Lunch		
2.00-3.30	Workstation	·	15' each
	1 ECG	Dr. Sudhakaran	
	2 I V access	Dr. Lola	
	3 Neonatal resuscitation	Dr. Raveendra Varma	
	4 Cardiac compression	Dr. Asish	
	5 Airway	Dr. Shamshad, Dr. Vilasu	
	6 Monitors	Dr. Anju	
3:30 - 4:30 -	Post test , Feedback and Conclusion	·	

### **ADDITIONAL COURSES**

# Two additional courses were conducted for nurses to help with the quality standards project.

- 1. Training at Thiruvanandapuram on 6&7th July 2013
- 2. Training at General Hospital, Ernakulam on 13th & 14th July 2013

## Delegates who attended training at GH Ernakulam

SI.No Name of delegates		o Name of delegates	Designation	Institution	Phone No:
	1	Nisha Antony	Staff Nurse	General Hospital, EKM	9846175578
	2	Chinnamma PU	Head Nurse	General Hospital, EKM	9446125288
	3	P.M Lissy	Head Nurse	General Hospital, EKM	9446895983
	4	M.I Valsamma	Head Nurse	General Hospital, EKM	9846313152
	5	Selvi K Varkey	Staff Nurse	General Hospital, EKM	9446017625
	6	Geetha T.V	Head Nurse	General Hospital, EKM	9142022588
	7	D Vanajamma	Head Nurse	General Hospital, EKM	9495017449
	8	Sheena mole S	Staff Nurse	General Hospital, EKM	
	9	Padmini Kumaran	Staff Nurse	General Hospital, EKM	9446612769
	10	Arundhathi K.K	Staff Nurse	General Hospital, EKM	9446416206
	11	Suni T.V	Staff Nurse	General Hospital, EKM	9446718672
	12	P.K Geethakumary	Head Nurse	General Hospital, EKM	9995355200
	13	K.S Molly	Head Nurse	General Hospital, EKM	9495425157
	14	Lysa Thomas	Head Nurse	General Hospital, EKM	9249896079
	15	Vijayakumari C.D	Staff Nurse	General Hospital, EKM	9895125395
	16	Komalavally V.C	Staff Nurse	General Hospital, EKM	8547175973

# **Quality standards in Obstetric Care**

In 2012, the Kerala Government invited the UK organization, NICE international, to study the state of maternal and infant health care in Kerala and suggest any steps to reduce the maternal and infant mortality rate. This was a sequel to the realization that these rates remained almost static in the last decade. Even though these Kerala rates were below the millennium development goals set for India, the Government was concerned that there were still avoidable maternal and infant deaths in the state.

A team from NICE headed by its senior officials paid several visits to the state and had discussions with the health secretary and other officials and the Kerala Federation of OBS &Gyn. They studied the document "Why Mothers die - Kerala" prepared by the Kerala Federation of Obstetrics and Gynecology on the basis of confidential reviews of maternal deaths. The NICE team felt that to reduce maternal deaths further. the two leading causes, namely hemorrhage and hypertension should be addressed. Standard of obstetric care has to be improved. Five steps each in the management were identified to prevent haematological and hypertensive deaths. After extensive group discussions it was decided to pilot these steps of quality standards in 6 Government and 2 private Hospitals in the state. The 10 steps, known as quality standards were as fallows.

## A. To prevent PPH death

- 1. Practice active management of third stage of labour in every delivery
- 2. 4th stage management- observe every woman after delivery for two hours
- 3. Give blood transfusion to everyone who

- developed BP fall in spite of IV fluids
- 4. Observe in the ICU/HDU, everyone who received blood transfusion.
- 5. Insist on ultra sound scan at 32 weeks for every woman pregnant after previous cesarean to identify potential cases of placenta previa accreta

#### B.To prevent deaths due to hypertension

- Increase the pickup of pre eclampsia cases by insisting on urine examination for protein in every antenatal case once in 1<sup>st</sup> and 2<sup>nd</sup> trimesters and during all visits after 34 weeks.
- 2. Start antihypertensive treatment for every pregnant woman with BP above 140/90
- 3. Start parenteral antihypertensives for every woman with BP above 160/100.
- 4. In every woman with high BP, check blood for liver enzymes and platelets and if identified to be having HELLP, consider expedited delivery.
- 5. Use Magnesium sulphate as the first line anti convulsant in the standard dose for every case of eclampsia and impending eclampsia.

It was decided that before starting the pilot, baseline data from the pilot hospitals had to be collected. The hospitals had to improve the infrastructure and staffing pattern. The staff had to be trained to improve the care and incorporate the required changes in the management. KFOG agreed to conduct the preliminary training of staff of different categories- Obstetricians, nurses and nursing assistants. Funds were allotted to KFOG to conduct the training and supply of

instruments required for improved management of labor and post partum period. The instruments were later to be used in the department for patient care. The National Rural Health Mission agreed to be the funding agency and as per order No: (NRHM)1293/M&E(QA)/2013/SPMSU Dt.29-03-2013 allotted rupees Nine lakhs Twenty eight thousand Five hundred and Forty four(9,28,544/-) from the RS 49 lakhs allotted earlier for the EMOCALS project. This amount was for conducting the training and providing the training equipment and instruments to the pilot hospitals under the Government sector. The details of training sessions, instruments and equipment's supplied to the hospitals are included in this report.

#### The pilot Hospitals were:

- 1. W& C Hospital, Thycaud,Thiruvananthapuram
- 2. SAT Hospital, Thiruvananthapuram
- 3. CHC Kanyakulangara, Thiruvanandapuram
- 4. Thaluk Headquarters Hospital, Chirayankeezhu, Thiruvananthapuram
- 5. Government Hospital ,Perurkada, Thiruvananthapuram
- 6. Government General Hospital, Ernakulam
- 7. SUT Hospital, Thiruvananthapuram
- 8. Mother Hospital, Thrisur

Dr. V.P.Paily was appointed as KFOG's representative to the quality standards project of Kerala.

Training was imparted to the labour room staff of pilot hospitals, as an introduction to the way the labour room practices have to be changed on the basis of quality standards. The prelaunch training was conducted during March 2013 in the following places:-

- 1.W & C Hospital, Thycaud on 7<sup>th</sup>& 8th March 2013.
- 2. SAT Hospital, Thiruvananthapuram On 9th & 10th March 2013
- 3. General Hospital, Ernakulam On 22<sup>nd</sup> March 2013
- 4. Mother Hospital, Thrissur On 23<sup>rd</sup> March 2013

By December 2013, it was felt that the Quality Standards should be expanded further to include new hospitals where large number of deliveries took place. It was decided to recruit the following hospitals.

- 1. Victoria Hospital, Kollam
- 2. District Hospital, Palakkad
- 3. Tribal Specialty Hospital, Attappady
- 4.W&C Hospital, Kottapparambu, Kozhikode
- 5. District Hospital, Mananthawady
- 6. District Hospital, Manjeri

The proposal was to train the staff in these respective hospitals on data entry first, without implementing the quality standards, so that baseline data will be available and then only ask them to start practising quality standards. Accordingly Dr.V P Paily visited all these hospitals to give them training in data entry. However, the implementation did not happen.

## SAMPLE PROGRAMME

# Quality Standards- prelaunch staff training (Coordinator – Morning Session: Dr.Rajasekharan Nair)

#### 8.00 -8.30 Registration,

Overview of Quality standards - what are they,

purpose and how to implement VP Paily
Discussion on each of the first 5 quality standards V P Paily

Discussion of last 5 points of Quality Standards Rajasekharan Nair Conduct of labour in the light of quality standards, Vasanthi Jayaraj

Setting up labour room, Sample delivery set, H/N Suseela How to reduce episiotomy, Seetha

Companion in labour – how practical, what problems? Kunjamma Roy

Common pitfalls in aseptic practice, keeping labour room tidy
Day to day running of labour room
Preparations for labour, cesarean, giving enema, shaving
Suseela/Shiny

#### **Interactive session**

#### **Lunch 1.00 – 2.00pm**

Post lunch workstations. Coordinator –V P Paily (Each station 15 mts)

When bleeding occurs – how to tackle, PPH chart,
 Condom tamponade, PPH Box
 VJ/Hasta/Anuja

2. When high BP occurs, what to look for,

How to reduce BP, MgSO4 Use, Eclampsia Box VRS/Hema/ Regi

3. Third and 4<sup>th</sup> stages, blood loss measurement – .

During vag delivery, during CS

Lalkshmiammal/

Bindu Thomas/

Arathy

4. When the patient suddenly collapses, what first aid,

how to proceed, BLS, Cardiac compression Anesthetist, Sujatha/

Lectures

Data Entry in Labour Register VPPaily
Manual Data collection monthly Hasta / Anuja

A/N class - purpose, who should conduct,

what should be taught

Induction of labour – different methods, video support

Basics of instrumental deliveries

Vasanthi

VP Paily

How to reduce c.section rates Interaction and Feedback

Conclusions

Model labour sets, cervical inspection sets and extra amniotic saline(EAS) sets were issued to the participant hospitals. Contents of each set issued is given

#### **Contents of Model labour set**

Steel tray to be used as baby tray 19"x13"x4"	one
Placental bowl 8.5"	one
Smaller bowl 4"	one
Sponge holder forceps	one
Episiotomy scissors 6"	one
Cord scissors 4"	one
Cord clamp – steel	two
Artery forceps 6"	two
Needle holder	one
Thumb forceps	one

## **Contents of cervical inspection set**

Single bladed large speculum	Three
Long, broad sponge holder	Three

#### Contents of Extra amniotic saline set

S S Tray rectangular	one
Small bowl (stainless steel)	two
Special Allis forceps	one
Sponge holding forceps	one
Long straight artery forceps	one
Artery forceps	one
Special cusco's speculum	one

## Details of the instruments supplied

## Name of the institution: W & C Hospital, Thycaud, Thiruvananthapuram
